Our Achievements

Mobile Apps

Cleango:

is a dry clean online service, developed for Websites, iOS, Android and Windows phone mobiles.

Key Features:

- Customer can order the service by one click as the app detects his location.
- Service driver comes to the location, picks the Laundry, send the items and bill to the customer by e-mail.
- When ready, driver returns the laundry to the customer's preferred location, and will be charged automatically upon arrival.
- The whole process is paper-less, thus minimizing the cost for the Owner and support the Going Green Initiative.
